

Zone'in Products

Designed by a pediatric occupational therapist to give children the edge they need to succeed.

Zone'in improves sensory processing!

Self regulate energy to improve attention, learning and behavior.

Zone'in is a self regulation program that teaches children to harness their energy to focus and attend, and is complete with simple strategies and tools that achieve immediate results.

Move'in ensures every child is literate!

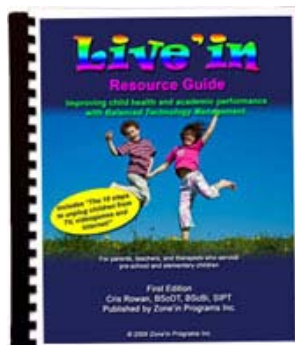

Printing and reading is easy with developmentally relevant strategies.

Move'in is a two part program. A fun board game assesses fine motor skill components and provides individualized interventions to improve printing and reading. Move'in comes with easy-to-use software to create a database, as well as make custom work and journal sheets.

Unplug'in builds confidence!

Develop performance skills so kids can unplug themselves.

Unplug'in addresses TV, videogame and internet addictions in children, helping them develop the necessary skills to unplug. Traveling through the *Me, We, Earth* and *Spirit* dimensions builds performance skills, empowering children to unplug. Unplug'in brings imagination and creativity back into children's lives!

Live'in balances technology with life!

Improve child health and promote a life long love of learning..

A resource guide for school and home that addresses the challenges faced by 21st century teachers and parents in balancing technology use with what children need to grow and succeed. *Live'in* is packed with up to date research, outcome measures and comprehensive, innovative, and easy to use strategies and handouts, enabling schools and homes to balancing technology use with a love for life and learning.

Balance technology with *Live'in!*
