

Zone'in Training

Create sustainable futures with balanced technology management

Complete the five day instructor certification course and join the elite and dynamic Zone'in Workshop Team.

Enhancing child development and improving academic performance in their communities and around the globe, pediatric therapists become experts on the impact of technology on children.

Problem

Child technology addictions

- challenging behaviors impact classroom management
- sensory and motor developmental delays widen the 'literacy gap'
- attachment disorders fuel diagnosis and medication 'mania'

Solution

Zone'in Occupational Therapist Training

Zone'in Training licenses private & public sector registered occupational therapists, to provide three *Foundation Series Workshops* to parents, teachers and therapists. By offering leading edge information, and innovative techniques and proven tools, OT's bring parents and teachers into the 21st century, and students to academic excellence!

Apply Now

If you're a Registered Occupational Therapist with at least five years combined experience working in either pediatrics, or presenting half or full day workshops to groups visit www.zoneintraining.com for application details.

One Year from Now

Be actively participating in educating families and professionals in your community and those around the globe.

Private 'for profit' model	Public 'not for profit' model
<ul style="list-style-type: none"> • limited monthly license • for private OT or clinic • \$200 per workshop per month 	<ul style="list-style-type: none"> • unlimited yearly license • for school district OT • \$200 per school or \$2000 per district
