

Pediatric Occupational Therapist Cris Rowan presented
“Mixed Signals” workshop on Feb. 19, 2013
 for health and education professionals in **Vancouver, BC**

What did the participants have to say?

	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
The workshop objectives were clearly stated	50%	50%			
The workshop was well organized	50%	50%			
The workshop was just the right length	50%	25%	25%		
The instructor was well informed	100%				
The workshop materials were useful	75%	25%			
The workshop objectives were achieved	50%	50%			

What was the most valuable thing you learned in the workshop?

- The video clips and cited resources for this were excellent. I am looking forward to digging deeper into the recommended sites and learning more.
- All of it!!!
- Thanks for all the research you have compiled. I plan on sharing it!
- Great back-up, research based studies, sharing that medication is NOT the answer for correcting behavior problems.

Was there anything not covered in the workshop that you felt should have been?

- No.

How could this workshop have been better or more helpful?

- Like all the others, more time to process and interact and move; maybe these sessions should be a full day (?)

Would you recommend this workshop to others? If not, why not?

- Yes.
- Yes.
- Yes, people, parents, teachers...need to know the detrimental effects of diagnosing children and in turn, medicating as opposed to more positive exposures e.g. green space, quality time with family...Thank You!

Any other comments?

- Thanks for a great day!
- Some repetition could be eliminated; more chat re: solutions.

Analysis: less repetition, more discussion.

Action: remove redundancy, allow time for discussion.
