Pediatric Occupational Therapist Cris Rowan presented
“Why Children Can’t Sit Still?” workshop on Nov. 5, 2009
for teachers and OT’s in Saskatoon, Saskatchewan

What did the participants have to say?

	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
The workshop objectives were clearly stated	100%				
The workshop was well organized	100%				
The workshop was just the right length	100%				
The instructor was well informed	100%				
The workshop materials were useful	100%				
The workshop objectives were achieved	100%				

What was the most valuable thing you learned in the workshop?

- I loved learning more about bottom-up research and how to explain to parents and other teachers. I will be bringing this back to my school and starting a sensory program to start school day.
- The carry-over of hearing this from more than one resource and the research helps back up belief and validation to the population.
- Further clarification/additional info from some info Day 1. I appreciate the activity “demos” and opportunities to try (I need to give this to teachers so they can “feel” effect and see that it will not disrupt classroom, take a lot of time away from teaching.)
- See comments on my other sheet.
- Research resources.

Was there anything not covered in the workshop that you felt should have been?

- No

How could this workshop have been better or more helpful?

- I like the webinar idea because it will allow more people or groups to benefit from this info.
- Excellent.

Would you recommend this workshop to others? If not, why not?

- Yes, other teachers
- Absolutely
- Yes!!
- Yes
- Yes

Any other comments?

- Excellent workshop. Thanks for the information and ideas.!
- Very beneficial! Great info.
- I loved this workshop! I appreciated how everything over the past two days was brought together. All to see the Big Picture. I would love to figure out a way through collaboration to incorporate "Green Space" into Northern communities also to integrate cultural ways/values into the Unplug'in Game.
- I really appreciate the research and references.
- Difficult families and alternatives to meds.
- Thanks again. You are so free with your ideas and resources which is much appreciated! So much to think about. Again, I appreciate when you give examples of the way you approach people, (e.g., say "I notice you....) that really helps. Thanks.
