What was the most valuable thing you learned in the workshop?

- Very useful to go through ‘The Basics’ necessary for printing. I can now apply these to the kids I see. This work doesn’t make up a lot of my usual caseload, so I don’t feel as ‘skilled’ in Tx and intervention of children with printing issues.
- Review on observation strategies for sensory
- The importance of movement!!!

Was there anything not covered in the workshop that you felt should have been?

- No

How could this workshop have been better or more helpful?

- I didn’t understand the overall use of the game

Would you recommend this workshop to others? If not, why not?

- Yes
- Yes – particularly good for new teachers who may not have received any training in teaching printing and the importance of it
- Yes

Any other comments?

- No
- Wish I would have been there for the morning! The Power Point info looked great!
- Thank you!
- Cris was really easy to listen to. I really liked the sensory breaks
