Pediatric Occupational Therapist Cris Rowan presented
"Zone'in and Move'in" workshops on October 6, 2008
to **First Nations teachers and teaching assistants in Terrace.**

What did the participants have to say?

	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
This workshop was useful	50%	48%	2%		
Presenter was well informed	80%	18%	2%		
Liked presentation style	58%	38%	4%		
Appropriate amount of information	50%	50%			
Good pace to presentation	72%	24%	4%		

Additional Comments:

- I think the presentation length was a little too long which made it difficult to remain focused
- Very eye opening – lots of light bulbs were going off!
- Thank you!
- Presenter has obvious excellent knowledge and compassion in the field
- Excellent – positive presenter who really knows her stuff! These programs really can be used successfully in the classroom
- It was informative – less is more
- I truly enjoyed this, thank you!
- You should recommend a book of indoor games for the Northern children as alternative to TV and videogames
- What works as they get older or if you've just started teaching older children that are in the lower levels?
- Lots of information but a bit overwhelming
- Great workshop – very informative and inspired me to try it all out in class!!
- Great workshop – I liked the part best when students get involved. Thank you for being there
- Speaker has obvious extensive experience working in schools, and seems to understand problems there
- Dynamic, enthusiastic
- Be great if all staff in our school would attend, great information for our age groups beginning to spell

- It was helpful now I understand where the students stand in grades 4/5/6/7 and I can identify what is difficult for them

Would you recommend this workshop to others?

- Yes – especially to 1st and 2nd grade teachers
- I would recommend this workshop because of the information offered, however both workshops might be better if changed to 2 hours per workshop
- Lots of strategies to help with fine motor skills
- I find it useful for other teachers of all grades
- Yes – build and learn fun ways for learners to learn to the best of their ability
- Yes
- Absolutely – practical and research based presentation was superior! Showed “why” steps are important with printing
- Yes – It was easy, fun and helpful
- Yes – there were a lot of good ideas and activities that I would use in my classroom
- Yes – teachers don’t get this kind of training enough
- Yes – better understanding for all those involved
- Yes – I think it has information useful to anyone working with kids
- Yes – it seems very motivating for students, easy to implement and teacher friendly to boot!
- Yes – very important facts especially for First Nations learners
- Yes – the workshop will benefit a lot of other people, like parents
- Yes – lots of good ideas to use right away!! Also explains theories to go with the practice
- Yes – very basic fundamental to learning and especially early fundamental development
- Yes – because as a fairly new teacher (4th year) I knew intuitively that printing is important BUT it was not a priority in our PDP – even for primary teachers! After doing my own reading and other workshops emphasizing movement and that we learn while we move, this workshop has given me TONS of strategies. It was all I was hoping for when I heard about it! Thanks!!!
- Content very interesting
- It will help them understand where their children or students stand and where they need to focus to get through subjects
